

# PROLOTEx™ - REGULAR FIT – LADIES Gloves

Prolotex™ Far Infrared REGULAR FIT - Ladies Gloves is the most recent Arthritis Glove design.

Not only do they have unique rejuvenating powers and pain relieving capabilities, they are super comfortable to wear.

Prolotex™ Arthritis Gloves offers you a safe, natural, and cost-effective way to help restore oxygen-enriched blood flow right down to your fingertips.

<b>Code:</b>	PRO-G05
<b>Style:</b>	Full Finger
<b>Color:</b>	Black & White
<b>5 Sizes:</b>	XSmall, Small, Medium, Large, XLarge

Wearing Prolotex™ Arthritis Gloves on a regular basis will provide the best healing results.

Prolotex™ Arthritis Gloves help to promote circulation and retard bacteria from growing on the flaky skin of your fingers.

*Elegant darts on the back of the hand make this Ladies glove a narrower than the Regular Fit for Men. A nice smooth palm, a nicely positioned thumb, regular finger length and a tidy small elastic gathering on the inside of the wrist make this glove the best choice for most women*

Designed for ladies with a normal hand and normal to short fingers.

*Hi - I just wanted to let you know how happy I am with the prolotex gloves. I was skeptical when I purchased them. I have arthritis and carpal tunnel from years of doing medical transcription. I have been wearing them to bed and for working during the day and in just under two weeks, I have noticed a big difference. Much less pain, in fact, hardly any. These are a miracle and I'll be recommending them to everyone. Thank you!*

*Sandy K.*

PROLOTEx™ Arthritis Gloves are a wise investment when it comes to the health and longevity of your fingers & hands.

*“Gloves are soft and comfortable on your hands. Even if you just wear them during the night while you sleep - you will be helping your hands to heal.”*

The threads in Prolotex™ Gloves are impregnated with a safe formula of bio-ceramics that emit beneficial far infrared rays (FIR). These waves of soothing FIR energy penetrate deep into the tissues of your body and basically increase the molecular activity of the cells.

*Will give you an elegant look.*
